Automatic optimization | CST Studio Suite

CST Studio Suite models can be parameterized with respect to their geometrical dimensions or material properties. This enables **users** to study the behavior of a device as its properties change. **Users** can find the optimum design parameters to achieve a given effect or fulfill a certain goal. They can also adapt material properties to fit measured ...

CST Studio Suite Recommended Hardware

CST Studio Suite Recommended Hardware. EM simulations can be classified as high performance computing tasks. This means that computers **used** for **CST** applications must meet high requirements in terms of CPU, RAM, and graphical specifications in order to achieve optimal performance. Sufficient power
